*The above information is for the base units. Many of the units come with a carrying case. There are options for many of the models including lights, hard cases, & extension poles. Call for information on the various models options.*

Type Description -

Banner stands are models where the graphics and the stand are separate and are assembled at the time of the show .

Retractable units have the graphics stored inside of the unit and are pulled up much like you would pull down a window shade.
