

ShowStyle

Briefcase Desktop Display

The Showstyle is Presentas most affordable and portable desktop model. It comes in a 24" x 12" briefcase that weighs only 10 lbs, and folds out into a 24" x 48" display with a graphics header.

The case is very durable and the fabric interior is great for posters with velcro backing. Whether it is for the conference room or the tradeshow, the Showstyle adds a professional touch to your presentation at an affordable price.

File Preparation

The graphic (shown left) shows a layout with a single center panel. Using this configuration, the center panel must be shipped separately. To transport the graphics already set-up within the unit, design the center graphic to be two separate panels 11.875" wide by 23.75" tall.

Create a 1/4" bleed around the image. All bit-mapped graphics should be at least 125 dpi at the final output size. All elements should be in the same color space, preferably CMYK.

Unit Pricing

Presenta ShowStyle Briefcase Display \$ 295.00

Signage Pricing

Professional Graphics for Presenta ShowStyle \$ 190.00

Pricing is based on full mural cover of front and end pieces. Pricing includes printing of supplied file on an Epson 9000 or 9600 printer, laminated using displayflex premium laminate, mounted on a 10 mil polybacker, and velcroed. Pricing is based on the standard layout option.

Order your prints with the display and receive a 10% discount on the printing.

Other Models

If you like the ShowStyle, but need a larger display, consider the ShowMax. The ShowMax display is 73.5" x 35.875" and has a 34.5" x 9.75" header. It comes in a hard rolling case that folds out into the display. The unit also comes with two hallogen lights.

The ShowMax retails for \$ 995.00
